E-1135

Need to Service Nitrogen Filled Tires but Don't Need a Costly Generator or the Hassles and On-Going Expenses of Cylinders?

The NEW NitroFill E-1135 Generator is specifically designed for locations that do not perform nitrogen conversions but need a solution to enable them to service nitrogen filled tires. While this high performance 3 cfm generator is capable of performing nitrogen conversions in light use applications, it is best used as a nitrogen "source," for quickly and easily calibrating nitrogen-filled tires.

The NitroFill E-1135 is also a perfect fit for busy facilities desiring multiple "Top-Off" stations or a unit that can calibrate tires without tying up their main generator.

The E-1135 converts your shop air into high purity (Up to 99.9%!) nitrogen providing you with an endless supply for top-offs and light conversions.

Features:

- Complete System, nothing else to buy.*
- Advanced PSA nitrogen generation system.
- Instant and uninterrupted flow with guaranteed purity up to 99.9%.
- Each unit comes fully assembled, just plug and play!
- 5 year warranty* *

*Requires minimum 5 cfm, 150 psi compressor to power.

**See your NitroFill Distributor or visit www.nitrofillnow.com for details.

General Specifications

Power Requirement	100-240Vac 50/60Hz
Operating Temperature	-4°F to 158°F
Compressed Air Input Range	87-123psi (min 5 cfm)
Compressed Air Quality	0.01ppm
Nitrogen Purity	95-99+%
Nitrogen Output	3.0cfm @ 116psi pressure
Maximum Nitrogen Pressure in Tank	102psi
Net Weight	156.5lbs
Gross Weight	194lbs
Dimensions (H*W*D)	49.6*17.7*23.2 inch
Packing Size (H*W*D)	54.3*20.1*28.7 inch

Note:

Includes 26 ft service hose and chuck.
Also available in 12 volt design.
